Indian Creek Resort Community Donates Scholarship

The Indian Creek Resort community, located in Fort Myers Beach, presented their annual scholarship check to the Lee County High Tech Central, General Scholarship Fund. The ceremony was held at the school, on March 18th. The funds will be used to assist in the paying of tuition and fees for students enrolled at the career training school, many of whom would not be able to attend school without this support.

For over 25 years, hundreds of students have benefited from the generosity of the residents from the Indian Creek Resort. Residents recycle newspapers and aluminum cans, sell entertainment books, and hold fundraising events to raise the money for the scholarships. High Tech Central's partnership with the Indian Creek community has become invaluable and is a great example of the partnership which exists between Lee County residents and area public education.

Students at High Tech Central may enroll in any of over 28 different career programs including Electronic Technology, Web Design, Massage Therapy, Carpentry, Welding, and Practical Nursing. Please call 334-4544 for more information about the training offered at High Tech Central.
